Mechanics of Human Movement

Course Progress 90.2% (11 of 13)

- Basic Terminologies
- Skeletal System
- Axial and Appendicular Skeleton
- Bones in the Human Body
- Types of Joints
- Movements about Joints
- Levers in the Human Body
- Week 1 - Lecture Notes
- Quiz: Week 1: Assignment 1
- Week 1 Feedback Form : Mechanics of Human Movement!!
- Week 2

Assessment

Week 1: Assignment 1

Due date on 2026-08-05, 23:59 IST

The due date for submitting this assignment has passed.Your last recorded submission was on 2026-08-05, 00:38 IST.

1. Which kind of joint primarily plays a role in trunk flexion? 1 Point

● Synovial joint
○ Fibrous joint
○ Cartilaginous joint
○ All of the above

Yes, the answer is correct. Score: 1

Accepted answer is Synovial joint

2. When a person nods their head from side to side to say no, which joint aids in this motion? 1 Point

● Atlantoaxial joint
○ Atlantooccipital joint
○ Sternoclavicular joint
○ All of the above

Yes, the answer is correct. Score: 1

Accepted answer is Atlantoaxial joint

3. Which kind of joint is the sternoclavicular joint? 1 Point

○ Pivot joint
○ Plane joint
● Ellipsoid joint
○ Ball and socket joint

No, the answer is incorrect. Score: 0

Accepted answer is Plane joint

4. What is the role of patella at the knee joint? 1 Point

○ Provides location for tendon attachment
● Increases moment arm for knee joint
○ Provides location for ligament attachment
○ None of the above

Yes, the answer is correct. Score: 1

Accepted answer is Increases moment arm for knee joint

5. Nose is to the shoulder girdle 1 Point

☑ Superior
☑ Anterior
☐ Posterior
☐ Inferior

Yes, the answer is correct. Score: 1

Accepted answer is Superior, Anterior

6. Which bones couple together at the shoulder joint? 1 Point

☐ Clavicle
☑ Scapula
☑ Humerus
☐ Sternum

Partially Correct. Score: 0.67

Accepted answer is Clavicle, Scapula, Humerus

7. Does any finger have less bones than the others? 1 Point

○ Yes, index finger with the absence of proximal phalange
○ Yes, thumb finger with the absence of distal phalange
● Yes, thumb finger with the absence of intermediate phalange
○ No, all fingers have equal number of joints

Yes, the answer is correct. Score: 1

Accepted answer is Yes, thumb finger with the absence of intermediate phalange

8. Pelvis is a part of 1 Point

● Appendicular skeleton
○ Axial skeleton
○ Both
○ None of the above

Yes, the answer is correct. Score: 1

Accepted answer is Appendicular skeleton

9. What is the mechanical equivalent of carpometacarpal joint of the thumb? 1 Point

○ Ball and socket joint
● Saddle joint
○ Pivot joint
○ None of the above

Yes, the answer is correct. Score: 1

Accepted answer is Saddle joint

10. Which joint conducts forearm pronation and supination? 1 Point

○ Humeroradial joint
● Radioulnar joint
○ Carpometacarpal joint
○ None of the above

Yes, the answer is correct. Score: 1

Accepted answer is Radioulnar joint

11. Which kind of joint do the sutures in the skull have? 1 Point

● Fibrous joint
○ Cartilaginous joint
○ Synovial joint
○ None of the above

Yes, the answer is correct. Score: 1

Accepted answer is Fibrous joint

12. The act of moving a body segment away from the mid-line is called 1 Point

○ Eversion
● Abduction
○ Adduction
○ Inversion

Yes, the answer is correct. Score: 1

Accepted answer is Abduction

13. Which of the following joints in the human body corresponds to a hinge joint 1 Point

● Interphalangeal joint
○ Carpometacarpal joint
○ Metacarpophalangeal joint
○ Atlantoaxial joint

Yes, the answer is correct. Score: 1

Accepted answer is Interphalangeal joint

14. Squeezing a ball in the hand causes _______ movement about the interphalangeal joints. 1 Point

○ Inward rotation
● Flexion
○ Extension
○ None of the above

Yes, the answer is correct. Score: 1

Accepted answer is Flexion

15. Patella is a sesamoid bone embedded within _______ tendon 1 Point

○ Hamstrings
● Quadriceps
○ Pectineus
○ Adductor longus

Yes, the answer is correct. Score: 1

Accepted answer is Quadriceps
